

SI120

Item No: T0056807699

Soldering iron 120 W, 230 V with bent tip, nickel-plated (12, 5 mm Type 43110)

The Weller SI120 soldering iron with mains plug has 120 W. It is equipped with plenty of reserve power for heavy-duty use in professional and light industrial applications. Due to the high power, it has the power to master demanding work with high power requirements such as sheet metal working. The SI120 soldering iron is supplied with a curved, nickel-plated soldering tip of 12.5 mm, type 43110.
