

05C

Item No: T0050500299
Soldering Gun Robust with built-in
solder-joint illumination

The Weller 05C soldering gun with built-in soldering point illumination is a very robust 250 W soldering gun. It is suitable for heavy soldering tasks that require a high wattage. The soldering gun has a yellow housing with built-in solder joint illumination. With this illumination, the solder joint is very well illuminated. It is a high-performance profile soldering gun with an iron-coated "Longlife" soldering tip.
